To: Bay View Elementary Teachers <bayviewelementaryteachers@ccps.org>

As we spoke about during our SIT meeting last Wednesday, each classroom will take 45 minutes at a time of their choosing next week to do our Green School Certification launch. The launch will consist of a brief introduction video, watching of the Lorax (25 minute version), and an activity. See links for the lesson below. Of course you can adapt the activity after the video as you see fit.

Intro Video

PS-2 Activity

For our activity after watching the Lorax, as a group brainstorm ways to help the Earth. You can make a poster with your class, a list, etc. Then, give students the chance to make their own poster. A template has been included, but you could also give students blank paper to create their own poster. (You will need to print as many copies as you need)

https://docs.google.com/presentation/d/1URlAkPmaQ6fCQSx7F18HdVol7bFm3lbkUKi_COsvd_E/edit?usp=sharing

Also be sure to share some pictures of your students doing the activity in the folder linked below.

Thanks.
