Mandy Feeney  
Program Coordinator  
Early Childhood Education

Dear MegaLight Inc.,

Thank you for considering The Cecil County Judy Center Early Learning Hubs as a partner in distributing your energy efficient and cost effective products for families in our community.

Judy Centers exist in all Maryland counties. We work as a community partnership to provide access to necessary resources for the whole family with a focus on school readiness for our birth to five population. We understand that a child's success in school is a family affair, and so caregivers are always a part of our community and school-based programs, as well as our events and community initiatives, such as the distribution of MegaLight/Delmarva products during school events and coordinated school days.

We would like to reach each area of our county by including our 10 elementary schools this fall, as well as our Head Start/Early Head Start Elkton location in August. These schools include: Cecilton, Cecil Manor, Holly Hall, Gilpin Manor, Thomson Estates, Bay View, North East, Charlestown, Bainbridge, and Perryville.

Thank you for your consideration,

Katie Valetutti
