

Before and After Illustrations	Draw or paint a “Before” and “After” picture. This can be of the island or of a specific character. Illustrate what it would have looked like before the boys were on the island and after they were on the island. This is to demonstrate the impact that was made either to the island or to the character chosen. Include 2-3 quotes from the book to support both your portrayal of “before” and “after”. Pictures should be drawn in color. Stick figures will not be accepted.
