

## TEACHER RECYCLING!

Hey Teachers!

We have done an excellent job at "the Recycling Thing" this year, but let's kick it up a notch.

Now in the copy rooms there will be a box for recycling AND a box for Reusing. If your copies did not come out correctly and they are blank on one side please drop into the box marked **MATH SCRAP** and they will be reused for math students for scrap paper. We have done well but we can do better. Recycle and Reusing just makes sense to Reduce as a whole. Math teachers will be able to utilize this paper for their students rather than getting a blank sheet for scrap!
