To confirm, there are 36 total 5th graders currently split in 18/18? Will their science time be the same after the new year or does the schedule switch. How many 4th grade do you have?

No worries! Yes, we will begin outreaches after January 1st.

Thanks,

This program would start after the new year correct? Right now our 4th grade classes are going through a mix up and I have no idea what things will look like after this month. Both the 5th grade teachers were surplussed.

I can say we have 36 5th graders currently in two classes. But they might be combining them into one. I should have more info after Thanksgiving break.

Good morning,

That's amazing to hear! All I need for now is some information on your classes:

How many students/classes in 5th grade?

What days and times do you teach them science?

Do any of your students need/benefit from lessons in Spanish?

Thanks,
Grace

Good afternoon!

What an amazing opportunity. It will be great to work together again. This is a really great group of 5th graders who just recently did the harbor eco tour and seem interested in the environment and conservation.

We are all in! Let me know next steps.

Good afternoon Ms. Bainbridge,

I hope you are having a great start to the school year! Living Classrooms came out last year to teach your students at Charles Carroll Barrister about Urban Heat Islands. I wanted to inform you that Living Classrooms at Masonville Cove has received funding to provide our year long MWEE program SLURRP (Students Leaders in Urban Runoff Reduction Project) for your 5th grade classes. This means that our education team will teach two outreaches in your classroom, provide two teacher-led activities, facilitate a action project and provide FREE transportation and field trip to Masonville Cove!

This funding begins in January through the end of the school year. I look forward to talking more! Please let me know if you have any questions.

All the best,
Grace
