Good Afternoon,

Thank you for contacting us here at CCB. We would love to have you come in and work with our 3<sup>rd</sup> grade classes! I am teaching 3<sup>rd</sup> grade for the next two weeks (that is how our science rotation works) Class 1 from 9-10am (24 students) Class 2 10:15- 11:15 (22 students) If you would be able to come at those times this week or next it would be great! If that does not work for you, I can forward you on to the 3<sup>rd</sup> grade teachers, who are amazing. From there the 3<sup>rd</sup> grade teachers could better explain their schedule and best times to arrange the activity.

*Shana Bainbridge*

Pre-K to 5th Grade S.T.E.A.M teacher

You don't often get email from gdeluca@livingclassrooms.org. [Learn why this is important](#)

Good afternoon,

My name is Grace DeLuca from Living Classrooms Foundation Masonville Cove Environmental Education Campus. With the new year, we plan to increase our outreaches to BCPSS third grade students. Our education team will come into your classroom for FREE hands-on ESTEM lessons. This program will follow our Climate Changemakers standards-aligned curriculum, which is centered on the question: "Why are cities so hot, and how can we help reduce Urban Heat Island effect?" We will examine different types of outdoor spaces and how the temperatures fluctuate and affect our environment. The hands-on lesson will fit very well into your 3<sup>rd</sup> grade curriculum at Charles Barrister Elementary and is a lot of fun for the students.

We are available Tuesdays-Fridays any time during the school day (we prefer to serve all of your class on the same day in their normal class sizes/class times if possible). Please reply back to this email ASAP with a first and second suggested dates/times. We currently have availability for March, but dates are filling quickly. We look forward to scheduling your classroom outreaches!

All the best,  
Grace DeLuca
