Cc Jones, Tessa D <TDJones01@bcps.k12.md.us>; Brown, JB <JHBrown@bcps.k12.md.us>

Thank you for your support. We will bring the recycling down to the street level to the left of the actual loading dock so this way if there is a delivery the recycling is not blocked.

Subject: Re: SY25 Recycling Collection @ Charles Carroll Barrister ES #34 | Thursday Curbside

Good Morning Shana,

I was informed by DPW that your recycling was **blocked** last week on 3/06/25. Please see the attached picture for reference. Is this an image of your school? We've noticed that cars are often parked too close to the dumpster, making it difficult for the DPW truck to maneuver safely. Even if a vehicle isn't parked directly in front, it can still obstruct access. For proper collection, the DPW truck must align with the dumpster head-on, ensuring enough space around it to safely lift and lower the dumpster.

In regards to the garbage and a possible solution being moving your recycling pickup location; I have included our DPW contact Betsy to better assist. [@Recycling](#)

Please confirm that you've received this email and that your next scheduled curbside collection is on **Thursday, March 13th!**

Thank you,
Omolola Anjorin

Good Morning,

Thank you for bringing this to our attention. Unfortunately, this is an on-going issue we have with the surrounding community. In order for our recycling to be picked up we should think about an alternative location on our campus to place the recycling.

I just do not have the power or control to change the condition of the area, is this why our recycling didn't get picked up?

Good Afternoon, Charles Carroll Barrister Recycling Team.

DPW has alerted us to the trash surrounding your recycling pickup location, they provided the attached photo. Can this be cleaned up by your custodial staff by this week to prevent contamination. Please let me know if you have any questions.

Best,
Omolola Anjin
