Greetings and Happy New Year!

As we wind down from the holiday season, you might find some light strings that don't have the same sparkle. They can't be placed in the regular paper/plastic/bottle bins and we don't want them in the garbage either. **The Environmental Club can help!**

Bring in any broken or unwanted strings of lights and we'll deliver them for recycling to the temporary location set up for this. Please drop off at room **206 by Friday, 1/27.**

Thanks for your help!
