

STAFF SPOTLIGHT: WELCOME BACK, MS. SULLY!

Inside Scoop

November 18, 2024

Sabina Sully, a special education teacher at Patterson Park Public Charter School, recently returned from a transformative journey to Patagonia as a Grosvenor Teacher Fellow!

This once in a lifetime professional development opportunity was made possible through a collaboration between the National Geographic Society and Lindblad Expeditions. While aboard the National Geographic Explorer, she had the opportunity to collaborate with conservation scientists, design lessons focused on the region's unique ecosystems, and forge lasting connections with researchers.

Ms. Sully is looking forward to using this experience to enrich her classroom instruction and inspire her students' curiosity about the natural world. Welcome back, Ms. Sully! 🎉
