Recycling mistakes

When I was inspecting the recycling bins I saw that the paper bins had a lot of plastic and sometimes had water bottles in them.
happens

For the glass bins I sometimes saw some paper or tissues in them.

Some classrooms don't have enough space for recycling bin space especially in the ~~kindergarten~~ classrooms.

Recycling mistakes observed by Club members:

- Water bottles and other plastics found in the paper bins.
- Paper and tissues found in the commingled bins.
- Some classrooms don't have space for large recycling bins; need to consider ordering a different type of bin.
