Dear Homeroom Teacher,

The Green Team would like to ask for your help in fulfilling one of the requirements to obtain the 'Maryland Green Schools Certification' – to participate in a schoolwide celebration. We are asking for your help with the following...

1. **Have students watch this 5-min. video on "Reduce, Reuse, and Recycle" for all ages:** https://youtu.be/belXC_loW4o
2. (For intermediate classes, here is a supplemental 4-min. "Laudato Si" video: <https://youtu.be/o3Lz7dmn1eM>)
3. **Discuss answers to the following questions as a class and write a short paragraph on the heart (provided), based on class discussion.**
 - a. **Why do we love God's Earth?**
 - b. **What will we do to protect it? (why do we need to?)**
4. **Then sign it with...**

"Love,

(your homeroom)"

Please note that the class discussion does not need to be lengthy! Just a quick way to increase awareness and engage thought about taking care of our Earth.

Mrs. Nichols will provide the "hearts" to write on for primary classes and I will hand out to our intermediate classes. Please kindly drop off completed hearts to Mrs. Pak's mailbox (lower school faculty lounge) by Monday, February 14th.

The hearts will be displayed on the bulletin board in the "glass" hallway, outside of the resource office. If you have any questions, let either Mrs. Nichols or myself know. Thank you so very much for your help and participation!!!

Ms. Eunice Pak

Fourth Grade Teacher, 4th and 5th Math

Saint Peter's Catholic School, Olney, MD
