

Sandy Spring Friends School | Green Schools Application | Objective 2

2. Student Action

Demonstrate that students are taking a step beyond instruction and responding to environmental issues by planning, implementing, leading, and/or participating in sustainable practices. Schools must document eight total actions that address at least three of the listed sustainability practices.

ACTION 1

Sustainable Practice:

2.3 Solid Waste Reduction

Description:

Preschool students learned about stewardship by discussing how to care for the planet. Students practiced turning off lights, sorting recyclables and trash, conserving water, and collecting litter on the playground. To apply their learning, they created Earth-friendly fashion pieces using recycled materials and showcased them in an Earth Day Fashion Show attended by families and friends. This project helped students practice waste reduction, reuse, and environmental responsibility.
