

Sandy Spring Friends School | Green Schools Application | Objective 2

2. Student Action

Demonstrate that students are taking a step beyond instruction and responding to environmental issues by planning, implementing, leading, and/or participating in sustainable practices. Schools must document eight total actions that address at least three of the listed sustainability practices.

ACTION 4

Documentation/Files/Images:

2.2 Energy Conservation

Description:

Our Upper School Engineering Club built an electric vehicle for the DC Electric Vehicle Grand Prix. Over the winter and early spring, they designed, tested, and modified the car, ending with a race-ready vehicle in school colors. The competition focuses on efficiency, not speed, as teams must complete as many laps as possible using limited battery power. Through the process, students gained practical experience with energy use, sustainable transportation, and hands-on engineering.
