

Sandy Spring Friends School | Green Schools Application | Objective 2

2. Student Action

Demonstrate that students are taking a step beyond instruction and responding to environmental issues by planning, implementing, leading, and/or participating in sustainable practices. Schools must document eight total actions that address at least three of the listed sustainability practices.

ACTION 8

Sustainable Practice:

2.7 Healthy Indoor Environments

Description:

Fifth graders harvested 588 radishes from Friends Farm and used averages and basic statistics to calculate their total yield. The radishes were then delivered to our dining hall to be served fresh on the salad bar. By growing food that is actually used in school lunches, students play a direct role in supporting healthier meals while learning about farming, food systems, and sustainability.
